

L.A. Marzulli: The Truth About the Coming Great Deception

As an author, filmmaker and expert on the Nephilim and the end times, L.A. Marzulli says he is beginning to see things in our culture that he never thought he would see.

"I'm excited, and I'm alarmed at the same time," Marzulli told Charisma News' John Matarazzo in a recent interview. "Jesus warns us that even the elect would be deceived. ... Then He says that men will faint from fear of what is coming upon the earth.

"Now, that could be a mile-wide asteroid, which I understand. But it also could be ships that are a mile-wide. Men faint from fear for what it coming upon the earth. Paul tells us that the dragon, Satan, comes with all signs and lying wonders. Finally, in 2 Thessalonians, it states that because they did not believe the truth, God sends them strong delusions.

"Let's walk through that. What is the truth? The truth is this: in the beginning was the Word, and the Word was with God and the Word was God. All things were made by Him and without Him was not anything made (John 1:1-4). ... So, we either believe that, which is the mainstay. I love it because here it is folks, this is how it all began. He was with God in the beginning and He is God. Or, we believe the fallacy of a Darwinian paradigm which says that over billions of years that somehow the complexity of life and the unbelievable genetic code of the DNA molecular structure just somehow happened."

In the meantime, many on the earth, believers and on-believers alike, are being deceived by those like British evolutionary biologist, ethologist and popular science writer Richard

Dawkins who has emphasized the gene as the driving force of evolution and has generated significant controversy with his enthusiastic advocacy of atheism.

“Basically, Dawkins is saying that in a galaxy far, far away a race of aliens who somehow evolved to an advanced state by some sort of evolutionary process seeded us and that’s panspermia,” says Marzulli, who has explored and debunked this theory in one of his early films. “What interesting is this is being held up by the scientific community because they know that something had to trigger all this on earth. The Neo-Darwinists are looking to panspermia, the idea that we were seeded here.”

How is Noah from the Old Testament connected to the end times? Read this story and watch the video with L.A. Marzulli to find out.

Meaning that they are trying to use any other reason or logic besides God because, if it is God as believers are 100% sure that it is, then they must be accountable to His rules and His life. We are accountable to turn our lives over to Jesus. If that doesn’t happen, then man can do whatever he wants to do without question. It is something that we are seeing every day in our culture.

“These people don’t like that for exactly those reasons,” Marzulli says. “We don’t want this Jesus guy around here. We want to do what we want to do, which is the first tenet of the satanic bible. That’s what got everybody in trouble in the first place.”

Marzulli says that the academic community—the scientific community—runs on Darwin’s theory and that we are now in that window of time where a strong delusion—the coming Great Deception—is something we are seeing manifest right now on this earth.

All of which, Marzulli says, connects back to the Genesis 3:15

narrative that the dragon will come soon. Marzulli believes that everything Jesus warns us of in the biblical prophetic narrative, once we unpack it, is the coming Great Deception.

✖ “When we do go up (in the Rapture), they show up. ... We won’t see the man of sin, but we might see ... let’s be honest, we’re living in Sodom and Gomorrah.,” Marzulli says. “There’s no doubt about it. You can’t fix this anymore. Now we’re talking about artificial wombs and AI and the pronoun deal and all this other stuff. We are in uncharted waters. Those that are promulgating this New World Order, they are running full speed ahead.”

Many, including Christians, are dealing with fear from this deception and are afraid that they will be one of the ones easily deceived. Marzulli offered some advice that will help these people hold steadfast to their faith and the Word of God, and to put on the armor of God every day to push that fear out of their lives and trust solely in Jesus.

“Jesus told us that we have not been given a spirit of fear, but of power and love and a sound mind,” Marzulli says. “The bottom line is this: our Bibles give us exactly what’s going to happen prior to when Jesus comes again. Jesus warns us exactly what’s going to happen. Prophecy tells us that men and women will faint from fear from what’s coming upon the earth. ... When you see these things happen, look up, for your redemption draweth nigh. There is nothing to fear because we know who wins in the end.” {eo}
