

Lance Wallnau Has a Word About the Alexandria Shooting

Every time Dr. Lance Wallnau visits Washington, D.C., lately, it seems a major event happens that further reinforces that God has His hand on President Donald Trump and those around him.

Guess where he was on Wednesday as a deranged supporter of U.S. Sen. Bernie Sanders, I-Vt., opened fire on a group of Republican members of Congress who were practicing for Thursday night's charity congressional baseball game? That's right, he was in our nation's capital, again.

While at the airport, Wallnau shared an encouraging word for the body of Christ regarding the events surrounding the shooting in the Facebook Live video clip above. Be sure to share it with fellow believers. {eoa}
