

Lance Wallnau Offers Prophetic Insight Into the News 'Before What Happens Next'

Business entrepreneur and author Lance Wallnau offered prophetic insight into today's top headlines "before what happens next."

Wallnau says much of the transition in our country is part of the spiritual realm that the media just doesn't understand.

"It's almost like God is driving the diviners mad out there in media land," Wallnau says.

Take the hiring of John Kelly and firing of Anthony Scaramucci as an example.

Wallnau explains it all in the video.
