

Larry Tomczak's Week in Review: Facebook's Silencing Trump Speaks Volumes About a Chilling Future

Mark Zuckerberg says the Facebook mission is clear: "To make the world more open and connected." But what's behind banning an out-of-office president whom 75 million voters support, and no evidence substantiates any inciting of the Capital insurrection?

Why do leftist regimes seek to silence opposition?

What are the reasons corporations are siding with BLM and socialist progressives?

When Sen. Hawley's book, *The Tyranny of Big Tech*, was banished, then picked up by another publisher, why did it skyrocket to No. 1 on Amazon?

And why have attorney generals from 44 states warned Facebook to abandon plans to launch Instagram for children?

Invest time in allowing cultural commentator Larry Tomczak to enlighten and equip you on these important developments. {eo}
