

Larry Tomczak's Week in Review: How Joe Biden's Progressive Ideals Deceive America

Marking 100 days in office, radical socialist Alexandria Ocasio-Cortez celebrated Joe Biden for "exceeding expectations for progressives" in their quest to change America.

Watch this 10-minute commentary to be informed and confident communicating truth to overcome today's widespread deception. Also know the difference between a politician's office and the person in that position whose character may warrant withholding respect. {eoa}
