

Larry Tomczak's Week in Review: I've Never Done This Before, but the Time Has Come

In high-level hearings, senators yield the floor to experts at critical times. That is what I'm doing for the first time in this most important episode.

When national security is at stake, human lives are being destroyed and the future of our nation and children is jeopardized, courageous congressmen must grill the responsible people under oath to expose corruption.

Watch our Christian brother and brilliant statesman Ted Cruz, R-Texas, corner Biden's DHS secretary, exposing intentional disregard for our Constitution, immigration laws and their abject failure at the border impacting our future, economy, safety and health. Their open borders policy has allowed an avalanche of drugs, criminals, COVID-contaminated people, sex traffickers and millions of migrants expecting complete medical care, entitlements and provided residences throughout America.

For your enlightenment, I yield the floor so scores will stand up for righteousness and abolish the unrighteousness abounding at this time. {eo}
