

Larry Tomczak's Week in Review: Would Billy Graham Address These 20 Issues or Stay Silent?

Although it's difficult to mention, we all know deep down inside that things continue to crumble in our culture.

On all fronts, there is shaking, and we are grasping for hope. The brutal reality is, we are at a crossroads ... a tipping point ... a time in our history where we either succumb to the pressures or do what God directs to survive victoriously in another Great Awakening!

Are we cognizant of the massive changes in our world and the need for us to change with the circumstances?

If Billy Graham were alive today, would he speak out on the hot-button issues of our day or remain silent, as many pastors seem to think he would? "We just need to preach the pure gospel like Billy did," say many, but they're misdirected and misleading multitudes.

Take 10 to be challenged by this video commentary that hopefully will get us all on the same page in these closing hours of history. {eo}
