

Laying an Axe to Jezebel's Roots in the Philippines

When Chuck Pierce prophesied the Lord was going to send me to many cities and nations to raise up troops to throw Jezebel off a wall, I had no idea the Philippines was among them. I went in with a strong mandate in October and met with some of the heaviest oppressive witchcraft I've ever experienced in my Christian life.

I plowed through the first day but knew we hadn't broken through. I asked the Lord how to shift the second day of the School of the Prophets there, and He led me to release a bold word about an ancient spirit plaguing the nation, which is made up of 7,641 islands. The Lord showed me the Philippines formed a covenant with the spirit Jezebel.

Ferdinand Magellan's cross was planted in Cebu in 1521. That's when the Spaniards gained a foothold in the Philippines. With Catholicism and all its Mary worship entrenched, the root of Jezebel—the queen of heaven—has yielded a disturbing harvest. Human trafficking is running rampant there. An entire island has been overtaken by witches. Sexual perversion and idolatrous cults are rising. President Rodrigo Duterte called God “stupid” and worse.

After my meetings there, the spiritual leaders of the nation brought me into a backroom to discuss the prophetic word I had released. These leaders explained they had been coming against this spirit and breaking ties for many years, but felt it was time to make the final blow. The next three years are vital for the Philippines.

The enemy wants to bring in a demonic revolution into the Philippines. But the Lord wants to usher in a spiritual revolution.

The Lord gave me this strategy:

1. The “no-warfare heresy” is running rampant and must be combatted. Just as in America, a teaching is propagating in the Philippines that we don’t have to fight the devil—we just have to receive the Father’s love. This is full-blown heresy. Read my article [here](#).
2. The warriors must be healed before the land is healed. The Philippines church is in the fight of its life. The remnant is rising but the reinforcements are slim. Many of the nation’s spiritual warriors have been hit with friendly fire and still others have been injured in combat. Many are going AWOL in the spirit and refusing to take their place in military formation. Healing must come.
3. Many in the church have not been taught to fight. Spiritual warfare teaching is critical, from introductory teachings to advanced level warfare.
4. New spiritual warfare strategies must be developed. The nation is under attack from Leviathan, Python and Jezebel. The president has covenanted with evil and has cursed God. Jezebel is being celebrated. Witches are being given authority. What worked in past seasons won’t work the same way in this season. The Lord will release prophetic acts, decrees and worshipping warriors to combat the rising evil.
5. We must pray for the Philippines. Here are some prayer points:
 - Pray that the no-warfare heresy will be overcome by the truth in God’s Word so a generation doesn’t soak only while the enemy takes over the land.
 - Pray that the spiritual warriors who have been wounded will find inner healing and rise up to fight again.
 - Pray that a wicked revolution will be abolished by a

divine spiritual revolution.

- Pray that Jezebel will be exposed and pushed back.
- Pray that the python spirit would lose its grip.
- Pray that Leviathan's stronghold would be broken.
- Pray for a righteous government.
- Pray for revival.
