

Let Difficulty Produce Bravery

Hold onto your courage during difficult times. Difficulty has a way of robbing people of their bravery. Can you remember a time when you faced your future with great courage and determination? What happened that caused you to shrink back from the dream for your life?

Walt Disney discovered a way to rescue people from the distress of hard times. Disney was a forerunner in animated cartoon films. During the economic difficulties of the 1930s, Disney captivated his audiences. He used his creative ability to help lift people of all ages from discouragement to joy. Disney was the recipient of 48 Academy Awards and 7 Emmys. He is quoted as saying: "All our dreams can come true, if we have the courage to pursue them."

Don't allow difficult days to rob you of your courage. Pursue your dream during every hard moment. Let the courage you once knew, propel you into your future.
