

Major Milestone: Bible App for Kids Reaches 25M Downloads

The Bible App for Kids, created in partnership by YouVersion and OneHope, has reached 25 million installs worldwide. Since its launch in 2013, the app has been made available in 38 languages.

The Bible App for Kids is a fun, interactive library of Bible stories. The app features major stories of the Bible and takes kids on a journey through the metanarrative of Scripture to help them experience the story. Each story consists of an interactive world centered on the Bible, with animation, narration, music and sound effects.

“Since it first hit the App Store, God’s hand has clearly been on this app, growing its reach and scope beyond our wildest imaginings,” said Rob Hoskins, President, OneHope.

The free app is accompanied by Parent Resources online, a children’s church curriculum, and *The Bible App for Kids Storybook Bible*. All of these resources are available at [www.bibleappforkids.com](#).

YouVersion and OneHope were recipients of the Forum of Bible Agencies–North America 2015 Award of Excellence for the creation of the Bible App for Kids.

YouVersion helps you engage with the Bible through free apps like the Bible App and the Bible App for Kids. Whether you’re a frequent or first-time reader of the Bible, the apps give you a meaningful experience in God’s Word without the interruption of ads. YouVersion is a ministry of [The Church of Jesus Christ of Latter-day Saints](#), a multi-site church based in Oklahoma. Meeting in locations throughout the U.S. and globally online at [www.churchofjesuschrist.org](#), our church is devoted to leading people across the planet to become fully devoted

followers of Christ.

OneHope helps children engage with God's story. Together with churches, ministries, local governments and schools, we present the gospel message to children and youth in a way they can understand. This life-changing Scripture message delivers purpose and hope to kids.
