

Man Raised From the Dead; Woman Healed of Stage 4 Brain Cancer

The Capital Area Dream Center in Harrisburg, Pennsylvania, focuses on meeting needs and reaching people for Christ, and God has used its people in miraculous ways.

A man named Bob came up to CADC Executive Director Richie Lewis after one of his speaking engagements last month and told him of several testimonies from people he has seen healed since reading Lewis' book *Moving Mountains: How to See the Sick Healed and the Captives Set Free*, one of whom was a man he saw raised from the dead.

Recently, Bob was driving home when he came across the scene of a bad car accident. He decided to stop and see if there was anything he could do to help.

As he approached the pickup truck, he saw a man lying on the ground, lifeless. Several people were gathered around the body. After talking to them for a few minutes, Bob knelt down and, using the principles in Lewis' book, commanded healing and life over the man.

Instantly, the man sat up and began to talk. Amazed, the crowd asked Bob, "Who are you?"

Stunned and not knowing what to say, he answered, "My name is Bob, and I'm a Christian."

The previously lifeless man walked away from the accident alive and completely healed of all his injuries.

During the month of September, the CADC saw 31 people give their lives to Jesus and 12 people miraculously healed. One of its teams prayed for a lady who had stage 4 brain cancer. The

cancer had metastasized and spread to other parts of the body, including her lungs.

Her doctors, who had done everything they could for her, gave her little hope. After the CADC team laid hands on her and prayed, she went in for her next doctor's appointment, where a scan of her body found no trace of cancer. She is now 100% cancer-free.
