

Marilyn Hickey Says This Virtue Is the Key to Kingdom Success

Wisdom is the key to success. We need wisdom in many areas—wisdom in navigating relationships and managing thoughts, emotions and time. How do you get wisdom? You ask for it. *The Get Wisdom Journal* will give you keys to solving your problems and will help you rise to a higher level of living and understanding of His ultimate purpose for your everyday life. The journal is an interactive daily devotional filled with God's wisdom, thought-provoking questions and inspired Scripture. You don't need to stand on the brink of another crisis: Get wisdom!

Jesus, through His unwavering compassion, has something specifically for you. The enemy will speak to you, distort the situation and lie, saying Jesus doesn't have anything for you, but Jesus has something for everyone.

In Matthew 15:29-39, Jesus was on a mountain when a crowd came to Him. Although it was a large crowd of several thousand, everyone there individually experienced something from Jesus. Sometimes we struggle physically, emotionally or spiritually, but Jesus has healing for us. Jesus gives us peace, provision, solutions, wisdom and hope so we can experience and express God's genuine love.

Why do some people experience miracles and others don't? Andrew Wommack's book, *How to Become a Water Walker*, shares the faith principles he has learned from God's Word about walking in the miraculous. Most people would like to have the testimony of walking on water, but before you walk on the water, you have to get out of the boat. If you're going to walk on water and see miracles, you're going to have to start

living a risky life.

To walk on water—do what God has called you to do—hear God, obey Him, and do what He tells you, and when the going gets tough, don't change or take another route.
