

Michael Knowles and Blake Healy Reveal Secrets of the Supernatural

Do you believe in the supernatural realm?

In a recent interview with Michael Knowles, Blake Healy shared his story of what it's like to be a seer in the spirit where his daily life includes seeing both angels and demons.

Starting at a young age, Healy started to see in the spiritual realm, both the good and the bad.

"I was two years old," Healy says. "I was sitting in the backseat of our car remember sitting back there and looking up seeing just about a half dozen of these baseball size lights just kind of drifting back and forth in time."

This first encounter with the supernatural brought Healy peace even though he didn't know what he was seeing at the time. However, his next time seeing in the spirit was quite different. Hearing what was likely an argument between his parents, Healy says he saw something demonic during their conversation.

"My second memory is seeing a demon," he says. "I saw this face just kind of morph out of the ceiling. It was long, and it was pale, and it had these sharp pointed teeth. As I looked at it, it kind of pulled away from the ceiling and drifted towards me, which I definitely didn't appreciate very much. I did the only spiritual warfare tactic I knew at the time, which was to jump into my parents' bed and pull the covers over my head."

During his childhood, Healy says he and his parents didn't realize he was seeing things outside of the ordinary. However, around the age of nine Healy says he began to realize that the things he saw were not part of the status quo. He was seeing both angels and demons, but soon found himself entering a time frame where he was seeing intense demonic imagery nightly, a type of warfare attack.

"I would see hands coming up out from under my bed and kind of pawing around like they were looking for something to scratch or pinch," Healy says.

After his family started going to a church that taught more about gifts of the Spirit, prophecy and seeing in the spiritual realm, Healy started to see that perhaps what he had was a gift that he needed to learn how to steward. Once he spoke to church leaders and his parents about his experiences, the nightly attacks ceased.

Since then, Healy has spent years growing in his gift. One of the special things he can see in the spirit is what he calls "personal angels." He says each person he encounters has their own angelic host that accompanies them along life's journey. Another incredible thing that Healy has been granted to see includes what happened in the spirit the moment a teenage girl decided to give her life to Christ.

"For the very first time in my life I saw Jesus standing there," says Healy. "He was in the space between the stage and the chairs, and He was just pacing back and forth in that space. And he was pacing in such a way that His gaze was

remaining fixed at a point somewhere at the back of the room.”

Healy says he saw the girl that Jesus was looking at who was resting on a divider between the stadium seating and the other chairs.

“I heard a voice in the back of my mind say, ‘He sees no one but her,’” Healy recounts.

Healy says the girl was covered in chains that had demons attached to the end. However, when Healy saw Jesus lean forward and kiss the girl’s forehead, all of the chains and the grip of the demons fell off of the young woman. He soon saw her dazzled in white robes, hugging Jesus.

It is stories of the supernatural like these that help us to see how the spiritual realm is just as real as the physical, and that there truly is a battle of good and evil. However, no demon and no stronghold is greater than the power of Christ.
