

Morning Rundown: King Charles Gives Controversial Christmas Message

Here's a quick rundown of the top stories on :

King Charles Gives Controversial Christmas Message

King Charles has caused quite the controversy over his Christmas message.

During the monarch's speech, he spoke about Jesus' birth, however, it was equated with the same value as all other religions.

"...our holy Savior came down to earth from heaven. Lived among the poor and [meek] and lowly, and transformed the lives of those He met through God's redeeming love. That is the heart of the Nativity story. And, we can hear its beat in the belief of all the great faiths. In the love and mercy of God in times of joy and of suffering," Charles says.

Bill Johnson Message for 2025: 'The Lord Set Us Up With Promise'

When we take a step of faith of believing and trusting in God, He does miracles. In a message on entering God's Promised Land, pastor and prophetic voice Bill Johnson shared with Bethel Church what he is sensing from the Lord right now about what we can expect to see in 2025.

"I wanted to grab this opportunity to talk to you because of what I'm sensing for this next year," Johnson says. "I feel

like the Lord set us up with promise; He's drawing us into a hope-filled future with promise. There's an inheritance that we can't earn, but we can disqualify ourselves from."

Johnson says that as he's been pondering on the concept of God's promises, he is filled with great hope for the coming year.

Did a Nuclear Event Destroy an Ancient Civilization on Mars?

In an exclusive interview with Charisma Media, L.A. Marzulli discussed what we can know right now about the coming great deception, how Nephilim and extraterrestrials play a role in our society today, and how Bigfoot just may connect to biblical prophecy.

One of the first topics that Marzulli discusses is a document that NASA decided to release over Christmas detailing a Mars exploration from 1984 and the deeper, darker way that the government likely obtained this information.

"Let's go back a bit," Marzulli says. "David Flynn talked about the pyramids on Mars, the face on Mars. This all came from when the spaceship is flying around Mars and taking photographs...there's a book in my library by a scientist who looked at the data coming from the rover, and he goes 'Wait a minute; there was an ancient civilization here that was destroyed in some sort of nuclear holocaust.'"
