

Muslims Getting Saved, Miraculously Healed as They Go to Christian Healing Rooms

Muslims in Arab countries are getting saved as they go into Christian healing rooms and are miraculously healed, says minister Cal Pierce.

Pierce founded Healing Rooms Ministries 20 years ago after he received prophetic direction to re-dig the healing wells. People struggling with sickness or disease can go to these healing rooms to receive prayer and ministry.

Pierce tells *Charisma News* that the organization now has 3,200 hubs in 74 countries, including Muslim-majority nations.

"About 60-70% of the healing rooms are located in churches because they're available, but the ultimate place is the marketplace, a storefront where people can come in from all different walks of life and receive to know Jesus and know Him as their healer," Pierce says.

And it's not just Christians who are getting miraculously healed. Pierce says people from all different backgrounds come to the healing rooms for prayer.

"We just heard from some of the Arab nations," he says. "Muslims come into the healing rooms and receive a healing as a sign that leads them to Jesus. Sometimes they'll have a family member who's a Christian, and they'll bring another family member who is sick, and they'll come in and have an encounter and receive healing and come to Christ."

Listen to the podcast to hear what other miracles God is doing through these healing rooms.
