

Never the Bride

Jessie Stone has dreamed of getting married all her life. But her road to happily ever after has taken some detours that ended in dead ends and left her with only speed-dating horrors—and still single at 30.

When God shows up, in the flesh, Jessie is skeptical. Will she give God control and let Him write the love story she has been longing for?

Author Cheryl McKay, who wrote the screenplay for the award-winning film, takes you on one single girl's quest to find the perfect husband.
