

Nothing is Impossible

On July 28, 1997, I was diagnosed with Non-Hodgkin's Lymphoma. The disease had already gone into my bone marrow.

As a believer, I knew that God could heal today just as He had healed people in Bible times. So along with my church family, I began seeking Him for healing. Many people were praying for me.

Today I am in remission, with no recurrence of cancer. I give God all the praise, glory and honor for sparing my life.

My experience taught me that we serve a good God, who is greatly to be praised and faithful to His people.

Nothing is impossible with Him!
