

One in a Million

 By Priscilla Shirer | B&H Books

Author and speaker Priscilla Shirer desires for Christian women to live beyond the point of just being saved and living a complacent Christian life. In *One in a Million: Journey to Your Promised Land*, she takes a deeper look at the journey of the Israelites out of Egypt into the land of milk and honey. She correlates their journey to the journeys many Christians take today.

Shirer contends that Christians enjoy deliverance from sin and bondage but have a tendency to look back and desire the things that have passed away. Due to fear and uncertainty, they miss the rest of the journey God has planned. She strongly encourages Christians not to allow themselves to become too comfortable in their times of peace, nor embittered in their times in the wilderness.

One in a Million is an ideal read for those who have found themselves discouraged or stagnant in their Christian walk and are ready to press on for more.
