

Our Invisible Allies

✖ By Ron Phillips | Charisma House | softcover | 224 pages | \$

Pastor of Abba's House in Hixson, Tenn., Ron Phillips attempts to bring clarity to the sometimes-misunderstood subject of angels in *Our Invisible Allies*. Rather than the childlike cherubims depicted in art and media, the angels the author portrays are strong, protective guardians who fight battles for God and His children.

Phillips has collected a variety of stories, including personal ones, where witnesses credit angelic intervention in crucial or worshipful moments, such as one who said a group of angels protected the foundation of his flooding home. He also relates Scripture that addresses the characteristics and duties of the heavenly warriors and identifies specific angels mentioned in the Bible such as Michael and Gabriel. Satan and his followers, who are fallen angels, are also discussed.

In *Our Invisible Allies*, Phillips is careful to highlight that believers should follow the Creator of angels and not angels themselves. At the same time, he gives instructions on how God uses angels to provide strength and comfort.
