

Our Witchdoctors Are Too Weak

 Davey
and Marie Jank | Monarch Books

Calling
to mind Don Richardson's well-known mission autobiography
Peace
Child, with its profound story of an unreached tribe receiving
"God's
Talk" for the first time, *Our Witchdoctors Are Too Weak: The*
Rebirth of an
Amazon Tribe tells of Davey and Marie Jank's 10 years among
the Wilo people
from the Amazon village of Pikali.

Among
witchdoctors and jungle animals, hiking trails and riding by
canoe or outboard
motor, they show how difficult it can be to live in a place
with limited
medical treatment, where the food is strange to one's palate
and with people
who have never had an opportunity to hear God's words to
them.

With
a sometimes humorous story that emphasizes the power and
simplicity of God's
Word that changed a people and took away their fear, *Our*
Witchdoctors Are Too
Weak reads quickly and easily, and will give each reader an
understanding of
the significance of being a witness, wherever one may be.
