

Prophetic Voices Sound Off on Middle East Crises, Urge Prayer

This week, Generals International hosted major meetings with Chuck Pierce, Peter Wagner, its U.S. Reformation Prayer Network leadership and other world leaders to discuss what the Lord is saying at this critical point in our nation and world.

C. Peter Wagner's Prophetic Insight

The Middle East is in the most volatile and dangerous position in decades. Egypt teeters on the brink of civil war, Iraq is still wracked with violence and the fighting in Syria threatens to drag the entire region (as well as a nuclear Iran, China, Russia and the U.S.) into a chaotic war, most likely resulting in Israel being attacked.

However, we firmly believe that these things do not have to happen, and they can be averted through prayer!

James Goll Awakened by an Angel

James Goll has prophesied in the past that the real threat was going to be Syria, not Iran.

James, who joined one of our meetings via conference call, shared how he was awakened by an angel with the words, "Attention! Be on the alert!"

This is a very sobering encounter. The meaning is clear: The Lord is supernaturally rousing intercessors and watchmen from their sleep and giving them the charge to fulfill their calling to stand alert and serve as "early warning systems" in the spirit.

Here is some corresponding prophetic insight that has been given recently:

- We shared an urgency to pray for the protection of our Capitol building and all of Washington, D.C.
- We urged our state leaders to call their states to focused prayer over ports and naval bases, including Annapolis and the eastern gate of the U.S.
- We all felt the need to pray for “unfiltered intelligence” to get to the CIA and other governmental agencies.

Chuck Pierce's Prophetic Revelation

Chuck Pierce prophesied that this Hebraic New Year will be a year of “open doors” of opportunity, though there will be many adversaries. This is tied to 1 Corinthians 16:9, that an effectual door of ministry is now open to us. We also need to “start setting all our doors in order in this New Year,” he said. Camels are gathering everything lost in captivity. God is bridging our past to help us enter our future; it is the end of one season, so expect something new. Days of restoration are coming!

Prayer Targets

As one looks at the prophetic words that came out of these meetings, it is clear we are in need of better intelligence and greater clarity and for those who stand guard over our nation to be awake and alert. This is not a time to be asleep, confused or distracted!

Please agree with us in prayer, and continue to decree a supernatural watchman anointing over our intelligence community, border agents, customs, Coast Guard, military, police and, in particular, those who stand guard over our ports along the Eastern Seaboard. In addition to this, please pray for the peace of Jerusalem and that war would be averted in the Arab world.

Thank you for praying with us for the nation, for Israel and for the Middle East!
