

Rabbi Jonathan Cahn: The Harbingers Have Not Stopped

Best-selling author Jonathan Cahn has a message for America, and he's answering your questions about the "great shaking."

"We have watched the apostasy of America continue," Cahn says. "It has continued and is accelerating. The harbingers have not stopped. They have continued to manifest, which are indications of a nation progressing to judgment."

For example, the Freedom Tower, which Cahn says is the one of the last harbingers, will be completed this year, the year of the Shemitah.

In addition, relations between America and Israel are at their worst as President Barack Obama pushes forward with the Iranian nuclear negotiations.

Standing alone, these events, along with some others, would be ominous. But as they all converge as once, Cahn says we need to take warning.

So what does that mean for us? Take a look!
