

Removing Familiar Spirits: The Key to Pornography Breakthrough

Familiar spirits are a driving force behind pornography and lustful spirits. People walk out in freedom and victory, change their behavior patterns and habits, and are successfully set free. However, months or years later they discover themselves in the same bondage.

Familiar spirits keep the same negative cycles and seasons happening in your life. They draw or lure you into temptation. A luring spirit collaborates with a familiar spirit, seducing and drawing you into the same sin. Identifying a familiar spirit that's causing you to slip again is key. Yes, sometimes we give into temptation, but demonic spirits are also at work.

Casting out, binding and restricting a familiar spirit over your life is the key to deliverance. It doesn't take just one simple prayer—you must really speak out and declare over a period of weeks and command these demonic entities to stop attacking. Speak out audibly, "Familiar spirits go, stop attacking, leave me alone, get out, in Jesus' name." There are no right or wrong word choices.

The key to removing familiar spirits is to be relentless in the attack against the spiritual warfare realm.
