

Renewed

By Sheri Jones-Moffett | EMI Gospel

Renewed is Sheri Jones-Moffett's first solo album, but she is certainly not a new kid on the gospel music block. She started her gospel journey 12 years ago as part of Donald Lawrence Tri-City Singers before teaming with Ted Winn for the duo act, Ted & Sheri, which released two albums: *The Healing Starts There* and *Celebrate*.

With her new release, a very personal one, her fans will get to know her even better. "Everything you hear is my life," Jones-Moffett explains on her Web site. "These are the things I needed to say, and I had to say them on my own. ... I wanted to deal with issues pertinent to me."

Renewed offers a variety of song styles that include worship, inspirational ballads, pop and "straight up and down" church songs. Visit online at [; or](#) to purchase this new gospel album, [click here](#).
