

Retired Lt. General: The Wealthy Will Profit off America's Destruction

The wealthy do not care if America burns, retired Lt. Gen. Jerry Boykin tells Jim Bakker. Rather, the millionaires and billionaires will profit off the country's destruction.

But the wealthy are sneaky, Boykin says. Many promote a socialist agenda in the name of equality.

"To begin with, one of the fallacies of Marxism is that it's about equality," Boykin says. "That is not true. If you wanna talk about the 99 percent versus the 1 percent, that's Marxism. Because 99 percent of the people don't get a whole lot out of Marxism, but there is 1 percent that does."

Marxism makes more money for those who have it to begin with.

Boykin suggests we take a closer look at George Soros. Watch the video to see more.
