

Rick Joyner Shares Secret to Getting Through End Times

Think back to Sunday School and the flannelgraph with paper Jesus leading the paper sheep.

The illustration is one of the oldest lessons teachers give children, instructing them how sheep know a shepherd's voice.

For prophetic voice Rick Joyner, this metaphor should be the guiding force as Christians live their daily lives during the end times.

"Most people, we won't know until eternity, we won't know how much harder our lives were because we didn't know His voice and didn't follow His voice," Joyner tells Jim Bakker. "As we get closer and closer to the end, (knowing His voice) is going to be life and death that we hear from Him."
