

Rick Santorum is a Fighter for Conservative Values

As a husband and father, Rick Santorum knows the importance of protecting and providing for your family. He believes that at the core of the American experience is the family, and that without strong families, we cannot have a strong and vibrant nation. During his time in elected office, Rick Santorum fought for the preservation of the traditional American family and for the protection of the most vulnerable in our society. Rick believes marriage is the union of one man and one woman, and he has fought against efforts to redefine marriage. Rick was the author of legislation outlawing the heinous act known as partial-birth abortion and he championed the fight to pass the “Born Alive Infant Protection Act” and the “Unborn Victims of Violence Act.” He also authored legislation to advance adult stem cell research, so that ethical research could take place to fight debilitating diseases without the moral implications associated with embryonic stem cell research that destroys human life. In 2005, Rick sponsored the Workplace Religious Freedom Act, which would restore provisions in the Civil Rights Act that require employers to accommodate the religious beliefs of their employees. *Reprinted from .*
