

Rod Parsley: What You Need to Know About 2016's Year of Jubilee

If anyone had a reason to give up hope this past year, it's evangelist Rod Parsley.

The internationally known speaker was diagnosed with throat cancer in May and underwent intense treatment that could have cost him his ministry.

However, God prevailed, and now Parsley is looking forward to 2016, the year of Jubilee.

"The Bible reveals remarkable revelation about this year of Jubilee and why it is so very important for you and everyone you love to celebrate and commemorate it," Parsley says of a new video describing the prophetic cycle.

"This is a God time; this is a God moment," Parsley says.
