

Saint Nicholas

 Big Idea | \$

VeggieTales communicates a message of sharing as only talking veggies can. Laura Carrot might not have a stocking this Christmas because her dad could lose his job. Larry the Cucumber thinks he can make magic happen for Laura by writing a letter to the North Pole. Of course, Bob the Tomato knows better. He tells the story of a boy named Nicholas who made a discovery in Bethlehem that changed Christmas forever.

What Nicholas learned can help Laura and her family. Children will understand the joy in giving at Christmastime and throughout the year.

Saint Nicholas is the first Christmas DVD from VeggieTales in seven years and introduces Nicky the Pepper, the first new veggie character in five years. Bonus features include a music video of theme song “Give This Christmas Away” with Matthew West and Amy Grant, audio commentary, discussion guide and much more

Big Idea is also partnering with Operation Christmas Child, part of Samaritan’s Purse, to help provide gifts for needy children worldwide. Thousands of churches will hold shoe-box drives this Christmas. Screenings of *Saint Nicholas* provide church leaders, children and adults an opportunity to donate shoe boxes.
