Following this murder, Tregubenko and Bolsakova joined Tatiana Deryugina and Alexander Perevozchikov-Khmury in the killing of another man in the forest. These killings occurred only two months apart.

Tregubenko's crimes didn't stop there. He also stabbed a man in Moscow following a confrontation. Russia's Investigative Committee noted that Tregubenko and the other Satanists then took the stabbing victim's blood and performed a ritual with it. Tregubenko has been sentenced to life in prison while the others are facing long sentences, including 13-15 years in prison.

When Satanic worship takes front and center in a person's life, it leads people to do the strangest of things and some of the darkest. In a day and age where witchcraft is seeping into our culture and churches, stories like this one are a reminder of why we should never play with the demonic.
