

School Girls Subjected to Humiliation and Scorn by 'Transgender' Male

Read Time: 3 Minutes 32 Seconds

He walked into the locker room. One girl had nothing on but underwear. She quickly pulled up some shorts and asked him to leave. He refused. Now the school is investigating ... not the man, but the woman who was naturally shocked by his presence in the female locker room! The so-called "transgender" agenda has gotten out of hand.

And they are just getting started. What happens next will infuriate you!

The situation I described just happened in Vermont, and it is quickly coming for your children and grandchildren. The U.S. House is pushing . 1209, the so-called "Transgender Bill of Rights," designed to allow males to invade the private spaces of females—locker rooms, bathrooms and even showers!

. 1209 is a multipronged attack. It pushes abortion, destroys churches and religious ministries that oppose this destructive agenda, upsets women's sports, invades women's privacy and places them at risk, and harms children and people of all ages.

This biological male teen did not need to be in the female locker room. One mom shared, he "was not changing and sat in the back and watched girls getting changed. That made girls feel uncomfortable, made girls feel violated and not protected."

Now, there are multiple allegations that this male said, "My male instincts are kicking in," in reference to seeing the

girls' chests.

But when a video went public of students speaking out against what happened in the locker room, this male watched it and burst out, "I'm going to 'expletive' kill someone," before allegedly adding, "I 'expletive' hate [the girl who spoke out]."

So, the school got involved. But not to investigate a boy in the girls' locker room, not to investigate his threats to kill a fellow student ... no, the school began investigating the girls for "harassment." Now these girls are banned from their own locker rooms because they dared to speak truth!

One female student said, "I feel like for stating my opinion—that I don't want a biological man changing with me—that I should not have harassment charges or bullying charges. They should all be dropped."

Our world is insanely upside down! Adults are forcing children to deal with the fallout of their own stupidity.

Now the Democrat leadership in the U.S. House wants to extend this evil nationwide. They are pushing what they call the "Transgender Bill of Rights" and they have nearly 100 sponsors ready to move forward. We must stop this insanity.

We need your voice to send a strong message. STOP . 1209 from passing with your urgent faxes to Congress now.

Children are being used as pawns, or worse, in the LGBTQ agenda. Each child that goes through puberty blockers, lifelong hormone meds, multiple surgeries and more is a million-dollar paycheck for the doctors and drug companies (between 900,000 and 1.3 million dollars per person).

This is a major cash cow through which adults are playing off the confused emotions of teen girls and boys for massive financial benefit! seeks to silence anyone who would speak the

truth to these confused kids.

. 1209 seeks not only to silence counselors, but also churches and religious ministries. Indeed, anyone who objects becomes a target.

. 1209 will cause significant harm. We must stop it now! Send your faxes to Congress to stop . 1209 from endangering our children, our freedom and our nation.

The “Transgender Bill of Rights” would apply to “the full range of places and services that members of the general public utilize.” Beyond invading locker rooms, will seek to do all the following:

- Force religious organizations, churches, employers, childcare and schools to hire LGBTQ staff and pay for opposite-sex hormones and surgeries, including abortion.
- Silence professional counselors from helping people overcome unwanted same-sex attractions, behaviors and gender confusion.
- Push so-called “ethical health care” by specifically recruiting doctors to perform surgeries to cut off healthy body parts and perform abortions.
- Demand religious hospitals and medical professionals perform these surgeries and abortions.
- Eliminates gender on some state and federal documents and allows for “X” to replace “M” or “F” on identification documents.
- Force families who rent out space (bed-and-breakfast, etc.) to host LGBTQ individuals inside their private homes.

Lead Pastor Wes Martin exhorted, “in such trying times, with cultural confusion and a growing immorality in our society, you’re either going to conform or you’re going to stand out and be controversial, unfortunately. And unfortunately, it’s controversial, but it’s biblical.”

The wedding saying, “speak now or forever hold your peace,” applies here. If we do not speak now, we will be forced into silence.

Our team needs your help to stop . 1209, even as we fight for religious freedom in courtrooms across America. In addition to your faxes and petitions, your prayers and financial support are critical to our mission and the future of America.
