

Sleepwalking Into War? Zelensky, Prophecy and the Chilling Future of America

For years, I have investigated world events through the lens of biblical prophecy, politics and history. The escalating global crises we are witnessing today—wars, economic instability, deep-state agendas and geopolitical betrayals—are not random. They fit a pattern, one that has been foretold for centuries.

We are standing at a pivotal moment in history.

Are we on the verge of World War III?

Are we witnessing the unfolding of the War of Gog and Magog, the Sixth Trumpet War or the setup for the New World Order?

These are not theoretical questions anymore. The global stage is set for something much bigger than what we see on the surface.

The Zelensky Factor: Who is Pulling the Strings?

One of the biggest geopolitical betrayals in modern history has just unfolded before our eyes. Ukrainian President Volodymyr Zelensky rejected a ceasefire deal that could have ended the war with Russia. Instead, he walked away and secured billions in funding from the United Kingdom and the European Union.

This raises a question that few in the mainstream media want to ask: Who is really behind Zelensky's decisions? Who benefits from prolonging this war?

In *The Trump Code*, I reveal the deep-state agenda at play—how global elites, the military-industrial complex and Western

politicians are using Ukraine to push us toward war with Russia and create the perfect storm for the rise of a one-world government.

Trump's Peace Plan—The Deal That Could Have Prevented War

What the media won't tell you is that President Donald Trump had brokered a peace deal for Ukraine. It was a brilliant move—one that could have ended the bloodshed, stabilized the region and ensured Ukraine's economic future by securing vital minerals deal with the United States.

But Zelensky rejected it.

Why?

Secretary of State Marco Rubio and Vice President J.D. Vance were in the Oval Office last week when this all unfolded. They later revealed that Zelensky had initially agreed to the deal but suddenly reversed his position. Why would he turn down a deal that would have ended the war?

The answer, I believe, lies in the shadowy forces manipulating global leaders behind the scenes—those who profit from war, division and crisis.

Is Biblical Prophecy Unfolding Before Our Eyes?

This brings us to a much bigger picture—the prophetic warnings of Ezekiel 38-39 and Revelation 9.

The Sixth Trumpet War describes a conflict that will kill a third of mankind (see Rev. 9:13-21). Ezekiel 38 warns of a coalition of nations, led by Russia (Magog), along with Iran (Persia), Turkey (Togarmah), and others, attacking Israel.

Sound familiar?

- Russia is advancing in Ukraine.

- Israel is at war with Hamas.
- Iran is threatening retaliation.
- Hezbollah is mobilizing forces along Israel's border.

Could this be one of the most dangerous moments in modern history? Could we be watching the beginning of the war prophesied in the Bible?

The Middle East Explosion: Israel Prepares for War

Meanwhile, as the world focuses on Ukraine, Israel is gearing up for a war that could reshape the region.

- 50,000 Israeli troops have been deployed to Gaza.
- The ceasefire is over. Humanitarian aid has been cut off.
- Egypt, Jordan, Saudi Arabia and other nations have been warned—the next phase of this war is about to begin.
- Hezbollah and Iran are preparing for a larger conflict.

This war is not just about land—it's about prophecy. The Psalm 83 war, the Isaiah 17 prophecy and Ezekiel 38-39 all speak of a massive conflict in the Middle East.

The Beast System and the Globalist Agenda

Many believe this is just political chaos. But in *The Trump Code*, I argue that this is something much bigger—the final setup for the Antichrist's rise.

Why did Zelensky reject Trump's peace deal?

Why are Western leaders pushing for war?

Why is the global economy on the brink of collapse?

Because a crisis is needed to justify a global government.

The late Chuck Missler, one of the greatest prophetic minds of our time, once warned that America could be judged or weakened to make way for the Antichrist's system. He believed that a major war could be the catalyst that ushers in a one-world government, an economic collapse, and the rise of a new global leader.

Are we seeing that happen now?

Blood Moons, Purim and Prophetic Signs

Adding to the intensity of this moment, we are about to witness another blood moon March 13-14, coinciding with Purim, the Ides of March and Ramadan.

Historically, blood moons have signaled major events in Israel and the world. Every time they appear, something significant seems to happen.

Could we be standing at the edge of the greatest prophetic fulfillment of our time? If these events continue in the direction they are heading, we could be witnessing the early stages of the Tribulation, the rise of the Beast system, and the fulfillment of the final biblical prophecies.

That's why I wrote *The Trump Code*.

I believe Trump's role in history is far from over. Following his historic comeback reelection in November, he represents a force standing against the globalist machine—a force that must be understood in the context of prophecy and America's destiny.

If you're not awake yet, it's time to wake up.

If you don't know Jesus, it's time to get right with God.

If you're still unsure, it's time to read *The Trump Code* and see the evidence for yourself.

Let's pray, prepare and stand for truth—because time is running out.
