

Supernatural Keys to Interpret a Word of Knowledge From the Spirit

Often when talking about the supernatural gifts of the Spirit, and especially when it comes to the “word of knowledge,” we struggle with how to activate, practice and grow. It takes time, and often it feels like a wrestle, as we get to know the way the word of knowledge is to be interpreted.

So much about having supernatural insight into situations and people’s lives begins in mystery. When it comes to our relationship with God, in the context of this amazing gift, it feels as though we are explorers of another realm. As we dive into exploring His supernatural kingdom, we discover there are unlimited treasures that continue to be unveiled to us each time we pursue understanding and interpretation of what He is saying.

It’s so much fun, yet at the same time, so dangerous. Dangerous because, when we get hold of this amazing tool, our lives and those of the people around us will never be the same. It’s fun because it adds new life and initiates a new pursuit of our friendship with God. John 15:15 speaks of this change moving from just service to friendship with Him. Friends share secrets with friends, and I believe as we grow in interpreting this amazing gift, even more change takes place.

Part 3 of this 3-part series on the word of knowledge will help with this exactly. Shawn briefly shares some practical tools to set you up to launch out into a lifestyle of operating in the word of knowledge. Get ready to go to new levels in your faith as you let the supernatural into your leadership.
