

The American (Spiritual) Revolution

Richard G. Lee, general editor of *The American Patriot's Bible*, believes that many of the same social and religious provocations that spurred the colonists toward the American Revolution are present today. Believing that America is on the brink of a new revolution, Lee seeks to inspire his readers to fight and win the battle for personal and national freedom in *The Coming Revolution: Signs From America's Past That Signal Our Nation's Future*. The book includes a foreword by Mike Huckabee.
