

The Apostle of Joy Speaks Out To Protect America's Children: Interview with Georgian Banov

Georgian Banov has The Father's heart for children!

For the last several years, I have had the occasion to attend meetings in which Georgian Banov was the guest speaker. However, it was not until recently I had the occasion to interact with Georgian in an intimate home church meeting and was able to interact with him personally. In that small, intimate setting in Leesburg, Virginia, we discussed what was happening with the local school board in Loudoun County Virginia, which had become the epicenter for parental rights and the conflict over the false teaching of "Critical Race Theory."

Educational systems are designed to teach children, not to propagandize them. The issue of "parental rights" became such a volatile issue in those Loudoun County School Board meetings that it dramatically affected the outcome of the governor's race in Virginia. It created an explosive upset victory in the governor's race in Virginia for Glenn Youngkin. Governor Youngkin stood up for the right of parents to determine what their children were being taught in the public schools. He was also opposed to teaching "Critical Race Theory" in the Virginia public schools against parents' wishes.

Terry McAuliffe, the Democratic candidate, said that "Critical Race Theory" was not being taught in Virginia public schools, which was a lie. Furthermore, Terry initially said the parents did not have the right to override the school board's decision and then later said that he never made that statement, which

also proved to be another lie.

In my discussions with Georgian, and later an interview with him for The Father's Heart Podcast titled, "Georgian Banov Helps Parents Protect Their Children," it became clear that Georgian had lived through experiences with communism in Bulgaria that we can learn from today. Georgian clearly understood how communism takes control over a nation and how it uses a nation's education system to propagandize children of a nation. Communism directs its attacks first and foremost at "free speech." With that in mind, those who control the levers of power in a totalitarian (communist) state want to indoctrinate the nation's children at the earliest possible age. Communists want to eradicate any voice that speaks contrary to their Marxist doctrine by contradicting their narratives.

The content the Lord has been giving me to create supports the idea that the Father's Heart is always interested in protecting, providing and mentoring. It was only natural that I interview Georgian to gain his perspective. Georgian has the Father's heart in his soul. He wants to protect, provide and mentor, and he willingly desires to share with the parents of our nation what parents need to know to protect our children from evil. By the way, what America is confronting is clearly good vs. evil: freedom vs. control.

Georgian told me he had researched the life of Karl Marx. If you want an example of a man who was clearly a bad father, you do not have to look any further than Karl Marx. Two of his children starved to death when he could have prevented it. His other two daughters intentionally committed suicide with their spouses. These are historical facts. What was transpiring in the heart of Karl Marx? Whatever it was, it most assuredly was not the heart of the Father!

Georgian told us a story about how when he was growing up in Bulgaria, he was not taught in the Communist government school

that America was in WWII! Even as a grown man in the Bulgarian military, he did not realize that America was allied to Russia against Germany. Can you possibly imagine attending a history class and not being taught who the actual participants were in the most pervasive war in the world? Why would a communist state lie about history? The reason is actually obvious: Communism is evil and the father of evil is the father of lies. Satan is such a liar; even if he told the truth, it would be a lie. The use of lies is the tool Satan uses through governments to manipulate people into willingly giving up their freedom in exchange for purported security. By lying to the people, the state gets control over the people until it's too late.

Let me give an example. While attending a conference recently, I heard a story how Hermann Goering, the Nazi propaganda specialist, was able to get the Jewish people to willingly comply with Nazi directives by lying to them. Goering told the Jewish people that the Russians were on the eastern front (this was partially true but not imminent and it was designed to scare the Jews and it was most effective). The German government wanted to "relocate" the Jews to safer places where the men would have jobs, the women could stay at home and the children could play and be educated. (In other words, he painted a rosy picture.) There would only be one small inconvenience: The trains would be crowded but, not to worry, it would only be a short ride. Can you imagine the diabolical spirit behind this story? This was how Nazis persuaded the Jewish people onto the trains, taking them to the concentration camps! The inhumanity of this process was beyond the pale!

What can we learn from the past to help us understand what is happening today in America? Is our government lying to us about COVID (Certificate Of Vaccine ID)? Is the government trying to scare us into taking the vaccine? Why are people being pushed or paid to take the vaccine? Why is the FDA not

disclosing all the ingredients in the vaccine? Why force people to take the jab or lose their jobs? Why are government mandates taking away our freedoms like freedom to worship, freedom to assemble in churches, freedom of speech, etc. Why is gun control so important to the Left? Do they want to confiscate our guns?

One thing is quite clear: Those who are running our government do not have the Father's heart. They do not want to protect, provide or mentor the people. Many of our leaders work for an evil principality. The people who are controlling the levers of power want to control us. They trick us into relinquishing our freedom. It's a trade made in hell; we will give you protection in exchange for you giving up your freedom.

We conquer our enemies by the power of the Word, the Sword of the Spirit. Speak the truth and never let up. Never surrender! Every truthful word we speak is important. Words have much more power than we realize. Therefore, we must speak and speak and speak. Always speak the truth. The Scripture is clear; the power of the tongue can control cities. Angels harken to the spoken Word of God!

Georgian Banov experienced hell on earth under the thumb of a totalitarian, communist regime. He is now seeing all the same tricks being played on the people of America (We The People). He is the apostle of joy! God our Father has a plan. We need to trust Him and do whatever He tells us to do individually, not the least of which is speaking out. Do not be silent! Pray and one day soon, maybe, just maybe, we will see the return of America's greatest Father; greater than George Washington and greater than Abraham Lincoln. When America, God's covenanted nation, needs it the most, He sends a Father. When Israel needed it most, God gave them David, the only man about whom God ever said: "David was a man after My own heart." He who has a Father's heart wants to protect, provide and mentor his family, his community and his nation. It's a part of His plan, not that we depend upon any man but we depend on God the

Father. Does He have someone with a Father's heart to lead us back to where our Founding Fathers birthed us? You bet He does: Donald J. Trump, where are you? {eoa}
