

# The Biblical Reason Natural Disasters Pummel the West

For once, Barack Obama made the right decision, Michael Snyder says, and possibly spared America natural disaster.

Snyder tells the *Jim Bakker Show* he believes there is a significant connection between supporting the Palestinian state and natural disasters striking the West.

Take, for example, Hurricane Katrina, which Snyder says began brewing in the tropics the very day many nations took a stand against Israel.

As for Obama, Snyder says the president made the right decision when he backed out of a resolution supporting a two-state solution late last year.

Take a look!
