

The Big Picture

 By Da'Truth | Cross Movement Records

The title of Stellar winner and Grammy Award-nominee Da'Truth's fourth album, *The Big Picture*, carries two meanings. The big picture as it relates to God's master plan: creation, the fall, intermission, redemption and the end time. And the big picture as it relates to His eternal perspective on the realities of life: joy, pain, suffering, prejudice, love and hate, life and death. All these have the purpose of showing us that God calls us to be a part of something bigger than ourselves.

Da'Truth gets support from fellow artists such as Kirk Franklin, Tye Tribbett, J.R., Freddy Washington Jr. and many others. This 17-song (read it: 17!) CD offers more than an hour of hip-hop music with a message.
