

The Board

Bridgestone Group

This new movie, created entirely by members of Bethesda Baptist Church in Brownsburg, Ind., creatively portrays the internal conflict within every human. In this dynamic story, the human soul is represented by a board of directors—made up of mind, emotion, will, memory, conscience and heart—that sets out to conduct business as usual. But when a difficult question with eternal consequences is presented, the conversation and discussion expose the group's hypocritical foundation. Ultimately, *The Board* reveals how God speaks to each person and how we must all come to a final life-altering decision.
