

The Edge of the Divine

Sandi Patty | Thomas Nelson

For more than 30 years, Sandi Patty has gifted the world with her musical talent. She has been inducted into the Gospel Music Hall of Fame, and her 39 Dove Awards and five Grammys make her the most awarded female vocalist in contemporary Christian music history.

The down-to-earth style and wit that make her a favorite at Women of Faith events also translate into her books. In her newest, *The Edge of the Divine*, Patty openly shares her journey to a healthier life through the help of weight-loss surgery. She is candid about her struggles and the hard work it has taken (and still takes) to overcome the issues that trapped her in an addiction to food.

Patty's willingness to share what she's learned about herself, admitting her faults and mistakes, will give readers courage to take stock of their own lives and make the necessary changes for a better life.
