

The Great Reset: Are We Accelerating Toward Antichrist's One-World Government?

End-times author Jeff Kinley hopes to inspire readers to be informed, equipped and ready for what the Bible prophesies will one day unfold.

"We need to be prepared for the return of Jesus Christ," Kinley recently told CBN's Faithwire.

That's the topic of a new book he authored alongside fellow eschatological mind Mark Hitchcock. The book, "Global Reset: Do Current Events Point to the Antichrist and His Worldwide Empire?" covers some fascinating ground, particularly concerning the intersection of prophecy and current events.

"Things are coming together with a velocity that we've not seen in modern times," Kinley said.

Watch him discuss the Great Reset, theology, prophecy and more:

Kinley believes the Great Reset, an effort by the World Economic Forum to address global issues ranging from the pandemic to other crises, could be paving the way for end-times prophecies.

His book promises to explore "how world leaders are using the Great Reset agenda to seize pandemics, natural disasters and catastrophes, civil disorder, political unrest and other current events to reshape every facet of life—all pointing toward the universal economy and godless global government of the Antichrist."

Kinley said global elites are intensely focused on wanting to “change the world fundamentally” and explained why the Great Reset is seen as a way to accomplish that goal.

“Sometimes you have to reset your computer or reset your phone ... they believe that the world is not working properly, it’s not equitable, it’s not honoring the planet, it’s consuming too much energy and too many natural resources,” Kinley said. “They want to reset the whole planet and basically replace capitalism with socialism, replace nationalism with a one-world government.” {eoa}
