

The Hope Habit

 The Hope Habit

Terry Law & Jim Gilbert

Charisma House

Do you feel trapped by current circumstance? Do you feel hopeless? Terry Law shows us how we can adopt a new paradigm of hope, what he calls the “confident expectation of the goodness of God.” This isn’t simply being optimistic; it’s a deep conviction that God is in control and “causes all things to work together.” You can have the mindset to choose hope first when despair is closing in. It’s never too late to make a habit of hope.
