

The Spiritual Reality Behind Those Planned Parenthood Videos

If you haven't watched the latest video on Planned Parenthood, please do. *National Review* writes:

The newest #PlannedParenthood video is Kermit Gosnell-level horrifying. WARNING: VERY GRAPHIC

It puts in perspective the evil that we're fighting against – and God is on our side. *NRO* is right. The spiritual reality is this: Whatever may be moral condition of America – however long it may have lasted – wherever we may be today, I bring this reminder: one step toward repentance could ignite a spiritual resurrection of America. But somehow we must face sin and deal with it. Killing babies is evil, and God's message is ever the same. There is hope, but that hope cannot annihilate the present, somehow removing us from the responsibility of the murder of more than 55 million unborn babies. Planned Parenthood must be defunded if we are to survive.
