

‘The Trump Code’ Decoding Prophecy, Time Travel and America’s Destiny

I first crossed paths with Troy Anderson in 2009 at a prophecy conference at Calvary Chapel, Chino Hills, California, where I was speaking. At the time, he was a reporter at the Los Angeles Daily News, and he not only wrote a story about the conference for the Daily News, but also a cover story—“Last Days Fever”—for Charisma magazine.

From our first meeting, it was clear that Anderson, a Pulitzer Prize-nominated investigative journalist, possessed an insatiable curiosity and a fearless commitment to uncovering the truth. His latest book, “The Trump Code,” reflects this unflinching dedication as it delves into some of the most controversial and fascinating subjects of our time.

In “The Trump Code,” Anderson explores quantum physics, time travel and the revolutionary work of inventor Nikola Tesla—topics many would shy away from. Tesla, known for his groundbreaking discoveries, had envisioned a world where free energy would be available to all, a vision that was tragically stifled by the greed of the global elite. Tesla’s technologies, which could have ended the energy crisis over a century ago, were suppressed by powerful interests determined to maintain control over the world’s energy resources. The book exposes how figures like the Rockefellers and Rothschilds prioritized profit over progress, keeping humanity enslaved to outdated and expensive energy systems.

Upon receiving an advance copy of “The Trump Code,” I was immediately captivated. The book offers a riveting exploration of Donald Trump’s life and legacy, tracing connections between Trump and Tesla through Trump’s uncle, John G. Trump—a

renowned MIT professor who was entrusted by the Federal Bureau of Investigation with Tesla's most secret and classified research. This research, which included studies on time travel, free energy and other futuristic technologies, profoundly influenced Trump from a young age, shaping his ability to think beyond conventional limits.

Anderson's meticulous research uncovers how Trump's exposure to Tesla's advanced technologies enabled him to develop a unique perspective on leadership and innovation. The book also draws parallels between Trump's rise and the fulfillment of biblical prophecy, a theme we explored together in our previous bestseller, "The Babylon Code." In that book, we examined the existence of interdimensional spiritual portals, such as the one at CERN, which function like the ancient Tower of Babel, allowing entities from other realms to enter our world. The satanic rituals associated with CERN are a dark reflection of the spiritual warfare that continues to this day.

In "The Trump Code," Anderson continues this line of inquiry, investigating Tesla's time travel theories and other suppressed technologies that could revolutionize our world if they were allowed to be fully realized. These technologies hold the potential to resolve the energy crisis and spark an unprecedented economic revival.

However, as the Pilgrims and Puritans understood, true economic prosperity and spiritual revival—such as the Third Great Awakening—can only come from God, rooted in repentance and obedience to His Word, as outlined in Deuteronomy 28.

Unveiling the Hidden Agendas of Globalism

Today, the majority of politicians, ordinary citizens and even Christian leaders in America remain unaware of the perilous implications of globalism, the World Economic Forum's "Great Reset" plan and the march toward a one-world government and economy. Yet Revelation 17-18 warns us of this "Mystery Babylon" system that seeks to dominate the world under a false guise of unity and peace.

When Anderson and I co-authored "The Babylon Code" in 2015, the threat of globalism was not yet widely recognized. But in the years since, events such as the pandemic, the rise of artificial intelligence, genetic engineering, the ongoing conflict between Russia and Ukraine, and the increasing tension between Israel and militant Islamic nations have forced many to awaken to the reality of what is unfolding.

The manipulation of weather, the looming food shortages and the encroaching economic crisis—all exacerbated by the introduction of 5G technology—are leading us toward a cashless society where a digital ID, possibly linked to a nanochip, could become a requirement to buy or sell. This technology eerily aligns with the "mark of the beast" prophesied in Revelation 13.

These crises are a wake-up call. They signal that something monumental is taking place, and it is driving us toward a global system of control that many Bible scholars believe is setting the stage for the end times. "The Trump Code" sheds light on these developments, urging Christians to recognize

the signs of the times and to prepare spiritually for what lies ahead.

A Prophetic Word

“The Trump Code” is a weapon in the spiritual battle for the soul of America. As David defeated Goliath with a smooth stone, so too will this book play a pivotal role in turning the tide in the great spiritual warfare we face today. God is amplifying Anderson’s efforts, granting him favor and opening doors at the highest levels, including a movie project. This is a new prophetic season, one that will surpass previous revivals like the Jesus Movement and the Charismatic Renewal.

Prophetically, I see this book as a smooth stone in your hand—aim it with boldness, and the Lord will empower you to defeat the giant before us. Remember, you are not merely holding a book; you are wielding a spiritual weapon that has been divinely inspired to challenge the forces of darkness.

America is at a crossroads, but with God’s supernatural power, we can ignite a Third Great Awakening, a revival that will bring millions into the kingdom.

The beast system is rising, and America is under threat from globalist agendas such as the Great Reset.” Yet God has called you to prophesy and teach His people, to ignite a biblical Third Great Awakening. As you do, the Lord will pour out blessings that you cannot contain. America shall be saved, as you have faithfully proclaimed through the voices of God’s prophets and evangelists.

A Prophetic Call to Action

As we navigate this new prophetic season, I am continually reminded of the power and purpose behind “The Trump Code.” The profound insights Johnson has integrated into the book are not merely informational; they carry the weight of spiritual warfare. When I read “The Trump Code,” the Holy Spirit moved powerfully within me, confirming the truth and urgency of the message. Dr. Jack Hayford once said, “Do not be surprised if, after praying for revival over many seasons, it seems like nothing is happening. Then suddenly, the power of revival explodes in you, through you and all around you, and you realize that God is using you to ignite it—the biblical Third Great Awakening!” This awakening is no longer a distant hope; it is here and spreading from the West Coast to the East Coast and across the world.

We are witnessing a divine “rollback” of the enemy’s plans, even those tied to globalist agendas like the “Great Reset.” What was once lost in America is being restored through repentance and the explosive power of the Holy Spirit—*dunamis*. As unlikely as it may seem, we find ourselves at the center of this divine storm, where the secrets of CERN and the mysteries of quantum physics, including time travel, are being unlocked for a greater purpose. It’s as though God has allowed us to rewrite history, altering key points in the past to reshape the future. This supernatural *dunamis* is dismantling satanic strongholds across time and dimensions, creating shockwaves that disrupt the enemy’s plans along critical moments in history.

In this moment, God calls us to act with wisdom and boldness. “The Trump Code” is not just a book—it is a spiritual weapon, and God has placed it in your hands to help ignite a Third Great Awakening. As you do so, blessings will overflow, and America will witness a revival that will lead millions into the kingdom.
