

This Day We Fight!

This Day We Fight!

Francis Frangipane

Chosen Books

Francis

Frangipane says one of Satan's favorite weapons against the body of

Christ is a "spirit of passivity." As Christians stop praying with

authority, they're rendered defenseless. Frangipane offers a warning for

believers to rise up and wage war against the enemy. With passion, he

delivers a message to help believers receive a fresh anointing that will

ignite hearts with a desire to stand with God-given authority.
