

This Demonic Power Will Block God's Blessings on Your Life if You Let It

This may be the *most important* message I have ever taught. It is changing lives and setting people free.

There is nothing that can stop God's blessings on your life, except one thing.

People can't stop God's blessings on you. The free-will choices, behavior and words of others can't stop God's blessings on you. The plans and strategies of the enemy can't stop God's blessings on you. Circumstances outside of your control can't stop God's blessings on you.

No person, demon or thing can stop God's blessings on you.

I've discovered that the only thing that can stop God's blessings on you, is *you*.

Offense that isn't properly dealt with is one of the greatest blessing-killers I know. Offense can block and hinder God's destiny and blessing on your life. You have the choice today to choose God's perspective, disempower the enemy and the free-will choices of people around you, and experience every good thing God has planned for you.

In this new podcast series we are going to learn how to disempower the enemy and be totally free from offense. This topic is so important I have also done a full four-part teaching series on it called "Break the Power of Offense." People have told me this series is changing their lives. Everywhere I go on the road people are being set free! Destinies are being opened. Hearts are being healed. You can visit my website today at [and](#) receive the full four-part

series in my online store.
