

WATCH: Are These Really Signs of Coming Tribulation?

We're watching. Waiting. Praying for the return of the Lord.

Could it happen next year?

"Now listen to this," author John Shorey says. "We have multiple prophets that are saying 2016 is not going to be life as usual in America; everything is going to be turned upside down."

But what if it doesn't? Are we just misreading things?

"If God said, 'Watch for these signs so that ye not be caught unaware,' and the word of the prophets, and we go through this next year and nothing happens, why did God tell us to watch, and it would literally mean God is teasing us through his prophets and God doesn't do that."
