

Watch Johnny Depp Tackle New Iconic Role: Donald Trump

Johnny Depp will don layers of make-up and undergo quite the transformation for his latest role: New Hampshire Caucus winner Donald Trump.

Depp as Trump is part of a *Funny or Die* spoof called *Donald Trump's The Art of the Deal*, according to *Entertainment Weekly*.

The Art of the Deal is introduced by Academy Award-winning director Ron Howard, who claims to have recently unearthed a VHS copy of the made-in-the-'80s film at a yard sale—debunking the theory that it was lost in the “Cybill Shepherd blouse fire of 1989,” according to *The Wall Street Journal*.
