

WATCH: These 2 Signs of the Harbinger Continue

It's time to open your Bible and look for signs to come based on parallels with the children of Israel.

Rabbi Jonathan Cahn tried to warn us in his book *The Harbinger*, which details specific warnings God gave Israel before he judged them.

"The tree of hope, representing America, withered away, withered away, no matter what they try," Cahn said of a tree planted at Ground Zero, one of the Harbingers. "I found out they actually tried to put new soil, they replaced all the soil, and it still withered away. And so one of the signs you see of the prophets, I will break off the vows, I will break off the branches, break off your glory, they broke the tree of hope, got its branches broken off because it was diseased, no matter what they did, broke it all off."
