

What You Can Do With Your Supernatural DNA

Can't carry a tune? Not an artist? Bethel Church's Theresa Dedmon says it doesn't matter, because you have supernatural DNA for creativity. On this episode of Sid Roth's "It's Supernatural," Dedmon says she wants to help you release that gift.

From Moses to Revelation, God used creativity to transform and tell his message," said Dedmon, head of prophetic arts at Bethel's School of Supernatural Ministry. "In Genesis 1, it says God created. And if He's creative, and in Genesis 1:27 it says we were made in His image, that means as believers we have the same power of creativity because Christ is in us. We just haven't accessed it yet."
