

You Won't Believe Justin Bieber's Latest Christian Tattoo

Pop sensation Justin Bieber is no stranger to his bold declaration of faith, so why not put it right at eye level?

The musician apparently took that idea literally and had a small cross tattooed just to the side of his eye.

"Justin came in last night and decided on a small cross near the corner of his eye," tattoo artist Jonboy tells *Us*. "It represents his journey in finding purpose with God."

What do you think of his ink? Did he take it too far? Sound off!
